

FAQs

Q: I see it is a really cool coin, but is there more?

A: It is so much more than just a cool coin. It's like a perpetual raffle ticket, a discount card and a coupon booklet all rolled into one! Charge more than \$20 and use it as a season event pass or membership token. It always makes a ball marker on the green too! You can make it whatever you want. Your supporters just need to register their coin to unlock all the benefits.

Q: Who is an Impacts Unlimited Coin Program best for?

A: Any school, non-profit organization, church or special cause needing to raise additional funds while building a plan for future fundraising is perfect for our coin program.

Q: Do we have to pay the coins up front?

A: Our customized pre-sell ticket system gets you going for a small deposit of \$250. Just place your order, design your coin and you will receive your pre-sell packets within 5 days. We will invoice you for the rest. Just \$250 gets you going.

Q: How long does it take for our coins to arrive?

A: You will receive an invoice for the cost of your coins after you place your order and pay the \$250 deposit . Using the dollars collected through your pre-sales, pay the invoice for your coins as soon as possible. 10 days after payment of the invoice, your coins will arrive.

Q: How much should we sell our coins for?

A: We recommend selling the coins for \$20 each. This represents a great value for your supporters (includes a 1 year membership to the Impact Cash Back Shopping network) and brings a 65% profit to your organization. However, the actual sale price for the coins is up to your organization and the goals you have for the fundraising campaign.

Q: How do we design our coin?

A: Our “online coin designer” makes designing your coin easy and fun. It is easy to customize and personalize your coin. You can also contact us for help in designing your coin.

Q: Can we find local corporate sponsors for our coin program?

A: We encourage you to connect with local businesses to establish sponsors for your program and to subsidize or even cover the cost of the coin fundraiser campaign. Feature your sponsors prominently on your Fan Club Member website, or even feature a major supporter on one side of your coin to thank them for their partnership.

Q: Can we offer additional benefits or rewards to our program?

A: Each coin comes loaded with many benefits already but we encourage your organization to solicit local merchants and your supporters to offer deals and discounts within your Fan Club Member Center to enhance the value of your coin.

Q: How do we run our raffles using our coin program?

A: Raffles are a great way to create more excitement and greater participation. Our system will create a list of all registered coins for you. Utilizing this list, you can easily select winners for your raffles. Coming in 2016, our systems will randomly select winners for you.

Q: Do we need a raffle license?

A: Most states require a raffle license obtained from your state government. Your organization is responsible for compliance with the raffle laws and license requirements in your state.
